Elemental Magic

elemental magic
Digital Magic Magic, of all the elements discussed in this book, is perhaps the element most well suited to digital techniques. One of the greatest challenges that face computer animators is to coax something that looks natural out of a machine that by its very nature creates perfectly logical (by mathematical

Magic isn't so much of a "how to draw" type book as it is a "how to approach" book.

Gilland breaks down the basic behaviors of different types of matter and the working methods needed for an animator to capture the dynamic essence of an effect without being tied to a hyper-real style or getting bogged down in an unmanageable level of
