While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

Korn Ferry, the largest search firm in the world, held on to the #1 ranking again this year. The growth of Korn Ferry continues to be fueled by its impressive list of acquisitions (Hay Group, Pivot. etc.), which have made Korn Ferry the only search firm on the list with more than one billion dollars in revenue.
