### **Precalculus For Advanced High School Courses By Larson 6th ...**

Precalculus is a course that is designed to prepare students for Calculus, either in high school or college. Now, calculus is the study of how things change over time; therefore, the goal of precalculus is to equip students to handle rigorous and dynamic concepts by helping them to connect their previous learning from Algebra and Geometry.

### **What is PreCalculus? A Quick Intro to What's Covered**

Advanced Math is all that and more. Exactly how much more depends on the school system or the textbook publisher making up the scope and sequence (the list of topics the course covers). So trig is the smallest course, precalculus is medium-size, and advanced math is the whole deal, up to and probably including a bit of calculus.
